Kenna

Kenna, a 4 year-old Bassett Hound, is a survivor. About two years ago, Kenna was rescued from an illegal outdoor breeding situation in rural Mississippi, where she had clearly been neglected and mistreated leading to many health issues. Despite an initial bleak outlook for her recovery, Kenna held on and after 4 weeks at a veterinary hospital, she pulled through! She went to live in a foster home where she learned how to live indoors with caring, attentive people. Soon afterwards she met her forever Mom, Melissa, and joined her in her work to help disadvantaged, disabled people, including veterans and their families. Just like their clients, Kenna has overcome a lot of obstacles in her life, and she's happy to help others in need.

But Kenna is more than a sweet, happy dog helping others. She's also going to be a TV star! This month you catch beautiful Kenna acting as herself in Comedy Central's sitcom, "Broad City". The episode airs on Wednesday, February 18th, on Comedy Central.
